Do you require: a count for each single animal  OR a bulk count on each group

Do you require a Fluke egg check?  YES  NO

Fluke results are positive or negative. Contact the lab before sample delivery to arrange fluke egg counts (enumeration).

Do you require a larval culture?  YES  NO

If yes – please specify at what epg this is to be performed.....

Do you need mailing kits? YES  NO  I am PREPAYING by:  Card  Cheque  EFT  
Banking details: National Australia Bank 083 253 Account number 85376 7430

Collection/Mailing of samples: For cattle: Collect 10 fresh dung samples. For sheep: Put mob in corner, leave 5 minutes. Move animals away. Collect 10 fresh dung samples. Please place at least one tablespoonful of dung in each small bag. Please seal all the bags and the pack carefully. If sending more than one group, up to 4 mobs may be entered on this form. Postage/freight costs will be minimised if all samples are sent in one parcel. Fit as many samples in the envelope as possible, or tape or tie envelopes securely together, leaving one address label clearly visible. This ensures all your samples arrive together. Thanks!

Express Post Samples Are Priority Processed
